

# CREDIT CARD SOLUTIONS FOR DELTEK COSTPOINT®

GovCardConnect® (GCC), powered by NeoSystems, is a web-based solution that seamlessly integrates with Deltek Costpoint®, enabling your business to accept credit card payments directly from your Government customers.

## Lowers Transaction Fees with Level 3 Processing

GovCardConnect® automates Level 3 data processing so that you meet all data requirements enabling you to qualify for the lowest transaction rates. Companies can achieve a 25 – 40% reduction in credit card fees on purchases made by Government agencies. Plus, you'll improve cash flow with cash deposits in 1-2 business days.

## Streamlines Payment Processing

This central portal increases efficiencies for end users by pulling invoice and line item detail from Deltek Costpoint, and accurately (and automatically) reconciles cash receipts with accounts receivable.

Line	Description	Amount Rcvd	Invoice	Customer Account	Account	Organization
1	Cash Receipts Cash Account	\$317,860.68			10-20-001	01
2	Billed A/R	(\$312,960.68)	INV-0000000209	TREAS		
3	Billed A/R	(\$4,900.00)	INV-0000000396	TEST02		

## Reach New Government Agencies

Over 350 agencies use 3.5 million federally-issued cards in over 100 million transactions. Purchase cards under the GSA SmartPay Program account for \$30 billion in volume - an opportunity your business shouldn't miss.

## PCI Compliant Payment Security

By using CardConnect's patented tokenization solution, sensitive card data never touches your system. CardConnect is trusted by more than 50,000 businesses to make payment processing simple, integrated, and secure.

Grow Ahead... We've Got Your Back Office®

### ✓ A Growing Trend

With over 350 agencies and organizations using charge cards for over 100 million transactions totaling \$30 billion annually, your business can't afford to sit on the sidelines of credit card processing.

### ✓ Lower Transaction Rates

GCC provides the correct data needed to qualify for the lowest rates. And these savings go directly back to your bottom line.

### ✓ Purpose-built for Costpoint

GCC was designed specifically for government contractors operating on Deltek Costpoint. The integration saves users time making it the fastest way to get paid. Plus, the layout and user experience is consistent with Costpoint, which means minimal training for your end users.

### ✓ Data Security Compliance

GCC meets the PCI-DSS data security requirements and helps to reduce your PCI footprint.
