CLIENTPAY
AN AFFINIPAY SOLUTION

Increase your cash flow by 20% or more with electronic payments from ClientPay

ClientPay helps AEC firms streamline their invoicing and get **paid 39% faster**. With the ClientPay Connect for Deltek Costpoint integration, you have the power to add secure payment processing directly to the ERP solution you already know and trust.

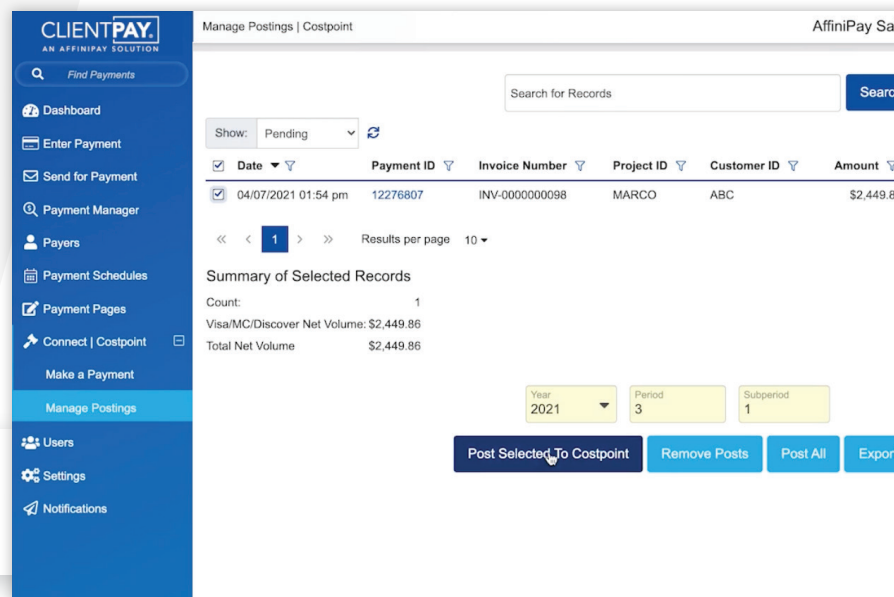

What You Get with the ClientPay Connect for Costpoint Integration

- ✓ Simple, secure digital payment processing
- ✓ Ability to accept debit, credit, eCheck, and GSA SmartPay from anywhere
- ✓ Straightforward, competitive pricing
- ✓ No setup or cancellation fees
- ✓ Advanced fraud protection and data encryption
- ✓ Expert in-house support

Visit the **Deltek Partner Marketplace** to learn more.

ClientPay's payment integration was built specifically for Costpoint users, seamlessly incorporating online payments into your current workflow.

More Ways to Get Paid! Now Costpoint users can more easily and cost-effectively accept GSA SmartPay p-cards from government clients.

SIMPLIFY THE PAYMENT PROCESS WITH **CONNECT PAYMENT PAGES**

Connect Payment Pages are secure payment pages that you can customize with your logo and contact information. Add payment page links to your website, invoices, and emails, and make it easy for clients to view and pay outstanding balances without having to log in. Clients enter their own payment information, eliminating the need for you to handle or store sensitive card or bank account details.

MAKE IT EASY TO GET PAID WITH **SEND FOR PAYMENT**

Have a last-minute billing need? Send for Payment allows you to email clients customized payment requests with pre-filled information and a direct link to your secure payment page. Because every request is personalized for the recipient, all they need to do is enter their card or bank account details and click Submit Payment.

ENJOY AUTOMATIC PAYMENTS WITH **CONNECT AUTO-PAY**

With the Connect Auto-Pay feature, you can establish automatic recurring transactions that streamline collection on new invoices and help ensure more on-time payments. Reduce late payments and minimize manual work, such as re-collecting or re-entering client payment information, by scheduling charges in advance.

STREAMLINE CASH RECEIPT POSTING WITH **INTEGRATED PAYMENTS**

All payments entered through the ClientPay integration are synced with the proper client accounts in Costpoint, simplifying and automating the posting of cash receipts.

GET VALUABLE INSIGHTS WITH **COMPREHENSIVE REPORTING**

Managing your firm is easier when you have the right information at your fingertips. ClientPay reporting was developed to display all deposit details for faster reconciliation. Our flexible reporting tools empower you to organize and analyze payment information in the way that best supports your needs.

BREATHE EASY WITH **ADVANCED SECURITY**

Our technology exceeds standards for internet security and PCI Level 1 compliance—the highest level available. You can rest easy knowing your company's data and your clients' sensitive information are guarded by advanced fraud protection, robust data encryption, and cybersecurity safeguards, and that our in-house risk team is always on alert.
