

Deltek
Marketplace Partner

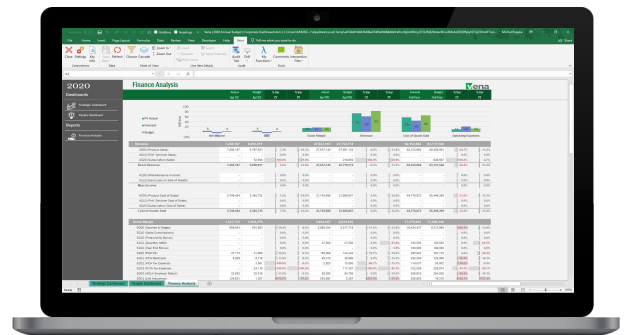

A powerful combination of FP&A and project planning solutions for Deltek customers

Better budgeting, planning & forecasting with Deltek

You've already made major investments in your data and technologies – from Deltek to all your Excel templates, models and reports. Maximize your return on those investments by uncovering the insights behind your numbers and driving more timely, data-driven business decisions.

Take the next step in your growth journey today with Vena's FP&A software. You'll be able to keep using your favorite spreadsheet to:

- Create stunning, personalized dashboard reports with financials and KPIs updated in real time.
- Perform variance, profitability and other analyses, on an ad hoc basis with real-time actuals.

Leverage your existing Excel models and templates for maximum adoption

“With Vena, we were able to cut our month-end reporting from 15 days after the close to a single business day....It's like getting a Ferrari for the price of a Cadillac!”

- Dominic Di Bernardo

Chief Business Intelligence Officer
Cumming Corporation

VENA - THE BENEFITS

Best in Class FP&A

Plan for any possible scenario
