CERTIFIED PAYROLL
REPORTING
Powered By Points North

Features

Payroll Integration

Our system works with your payroll provider to provide a streamlined reporting process.

Unlimited Report Generation

Generate an unlimited number of digitally signed prevailing wage reports with a single click, regardless of report format.

All Report Formats

Gain instant access to federal, state, and municipal report formats that are kept current by our team.

Rate Management

Store and manage prevailing wage rates at any level necessary based on your projects.

Prevailing Wage Calculations

Store and manage fringe data at an employee, project, or work classification level.

Certified Payroll Reporting by Points North is the solution of choice for any contractor or construction company working with prevailing wages. Our full service compliance solution stores and manages rates, performs custom calculations, imports hours from timekeeping platforms, outputs data for payroll and accounting systems, automates the production of certified reports, emails reports to all desired parties, and more.

About Points North

Points North is a nationally recognized software firm that specializes in developing innovative products designed to provide a suite of compliance solutions.

Our Clients Say...

"The time savings provided by Certified Payroll Reporting saves us more than \$24,000 per year.

I would recommend this reporting solution to anyone in the government construction industry"
