92.6%
success rate

To ensure accurate and complete verifications, we work with **28 employer vendors**. If an employer's vendor is unknown, we make **6 attempts in 4 days** to verify employment history directly with an employer.

47.6
hours

That's our **average turn-around time**. As soon as we receive your request, our verifications team goes to work to compliantly verify your candidates, minimizing any delay in your hiring process.

97%
client satisfaction

Clients always come first at Verified First. That's why we keep our verifications team **world class**, ensuring compliant results and providing our clients the support they want, when they need it.

Our Promise:

In the case that we get no results from an employment vendor, **we promise** to do our best to verify with the employer directly by another method, if they will. If they will not, **we promise** to check back with the vendor and investigate if there is a reason no records were found. **We promise** to mark them accordingly.
