

Empowering the people who build the world

The field's favorite app

At Raken, our mission is to create happier, safer, and more efficient jobsites. We designed our app for the field first to make communicating between the jobsite and office as easy as possible.

Trusted by more than 4,700 of the world's leading construction companies:

easiest The worst part of your day

Out with the old In with the new

- - - Headaches
 → Raken

- Missing reports

 Quick & easy surveys
- Budget overruns

 Actionable insights
 - Legal disputes

 Photo documentation
- Safety incidents

 Accident prevention

Everything you need to get home faster

Progress

Collect better jobsite data and improve documentation with a complete picture of daily progress using photos, videos, and notes.

Safety

Maintain compliance with digital toolbox talks and custom checklists. Assign topics for each job and easily store attendance sheets and completed checklists.

Productivity

Record timely, accurate production data straight from the field. Log materials installed, heavy equipment usage, and hours for individuals and crews.

Field insights

Gain valuable business insight with real-time reports. Use field data to improve project margins by predicting labor, material, and equipment needs.

Don't just take our word for it:

The amount of time Raken saves our guys really contributes to their quality of life. They're not spending all their time in front of a computer. They can get in, get their daily reports done, and go see their families.

Rich D. Project Superintendent, Hensel Phelps I'm older than dirt and younger than dust and this app is just great for us older folks.

Matt R. Superintendent, Grindstone

Raken elevates our company to a better level over our competitors that aren't using it.

Blair M. Director, Opus Mechanical
