# FMIS Enhanced Purchasing for Deltek

The most comprehensive purchasing solution for Deltek Vantagepoint and Vision users

## WHY USE ENHANCED PURCHASING?

FMIS Enhanced Purchasing for Deltek provides comprehensive and integrated purchasing control for customers requiring more than the built-in purchasing module within Deltek solutions.

Enhanced Purchasing for Deltek is ideally suited to companies with intensive purchasing requirements, especially where inventory or stock is purchased for production, engineering or sale to clients.

With FMIS, all purchases can be allocated to a specific project.

## WHAT IS ENHANCED PURCHASING?

FMIS Enhanced Purchasing provides greater control over the buying cycle from purchase order approval through to goods receipt and accounts payable. Two or three-way invoice matching allows for fast, efficient bulk processing of supplier invoices.

Product catalogues and vendor management make ordering and tracking inventory or stock more efficient and cost-effective. Flexible workflows improve expenditure control and streamline approvals to avoid project delays.

With FMIS, you can effectively manage complex orders, including partial deliveries or multiple vendors. Users, vendors and projects are all shared with Deltek to avoid data duplication. Purchases can be posted back to Deltek to provide a full purchase history and greater project visibility in either solution.

### REQUISITIONS

Requisitions allow users to source materials efficiently whether they are in held in stock or purchased

### REQUEST FOR INFORMATION

Use RFI's to collate vendor proposals before placing a new order. Auto create new PO's from a successful RFI

### CHANGE ORDERS

Amend any element of your purchase orders as often as necessary with a full version history

### ACCOUNTS PAYABLE

Match invoices against purchase orders as well goods received to ensure accuracy

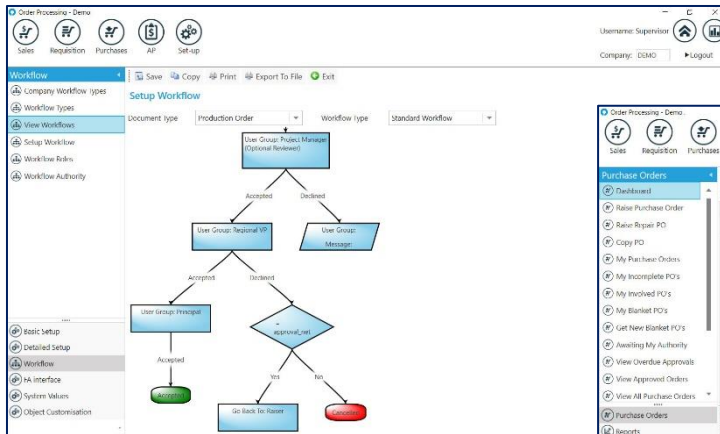

## APPROVAL WORKFLOWS

Create flexible workflows based on any criteria including order value, project, location or authorisation limit

## PRODUCT CATALOGUE

The central product catalogue streamlines materials allocation and improves vendor management

**My Purchase Orders: Purchase Orders**

Line No.	Product	Part No	Description	Note	Ordry Quantity	Unit	Price	Net
1	POBROCK		Pontoon		1.00	EACH	100.00	100.00

## INTEGRATION

FMIS offers off-the-shelf integration for both Deltek Vision and Vantagepoint. Integration is available for installed and cloud-hosted installations.

FMIS has been extending the reach of Deltek products for over a decade to provide powerful Purchasing, Materials Management and Asset Management functionality specifically designed for project-based businesses.

You can find out more about FMIS solutions for Deltek through the FMIS website or the Deltek Partner Marketplace.

“FMIS is exactly the solution we needed. It allows us to manage our design build projects from start to finish”

**Teresa Raffel**

Director of ERP & Supply Chain Management

“In FMIS, Exponent found a system that provided the flexibility we needed to accommodate our approval matrixes while still seamlessly interacting and taking advantage of the capabilities of Deltek.”

**Sue Lawless**

Business Manager

“FMIS replaced all our manual processes for managing inventory, procurement and production. It has saved us so much time especially working with BOMs. Best of all, FMIS is fully integrated with our Deltek ERP.”

**Whitney Minnes**

Information System Specialist
