# FMIS Enhanced Asset Management for Deltek

The most comprehensive Asset Management solution for Deltek Vantagepoint and Vision users

## WHAT IS ENHANCED ASSET MANAGEMENT?

FMIS Asset Management for Deltek allows you to track, manage and account for your assets and equipment quickly and easily. Full integration with both Vision and Vantagepoint gives you greater control and visibility, while FMIS Mobile Asset Manager lets you manage equipment and assets from anywhere.

## FOR FINANCE TEAMS

The FMIS Fixed Assets Management System is a powerful, easy-to-use fixed asset accounting solution with the flexibility to handle complex asset information in any industry and across multiple companies, countries, and books.

### AUTOMATE DEPRECIATION

Automatically depreciate property, plant and equipment across multiple books, entities or currencies for any period or range of periods

### SIMPLER YEAR-END AND AUDITS

Save time, simplify year-end and close down periods faster with accurate up-to-date data. Generate all general ledger postings quickly and accurately

### FASTER PROCESSING

Calculate and forecast asset depreciation for large volumes quickly. Manage multiple companies, currencies and books within one asset management system

### BETTER REPORTING

Extensive reporting and search facilities for assets and equipment. Track depreciation, transfers, impairments, revaluations and disposals of fixed assets

## FOR OPERATIONS

FMIS allows users to track and maintain their equipment effectively and quickly. Barcode tagging makes identifying

### ASSET TRACKING

Easily view any asset location, status and history across multiple sites, companies and countries

### BARCODE TAGGING

Use barcode or RFID asset tags to quickly and easily carry out audits or update records to ensure an up-to-date asset register

### EQUIPMENT MAINTENANCE

Schedule and record all preventative and reactive maintenance. Set reminders and easily create work orders for all jobs

### MOBILE ASSET MANAGEMENT

Track, allocate and maintain assets and equipment in the field or warehouse from your mobile device

## INTEGRATION

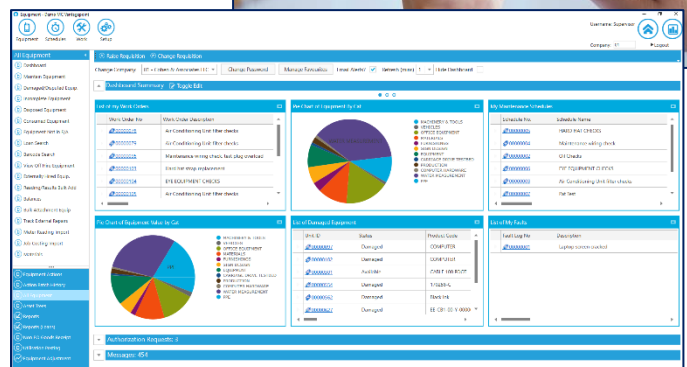

FMIS offers off-the-shelf integration for both Deltek Vision and Vantagepoint. Integration is available for installed and cloud-hosted installations.

FMIS has been extending the reach of Deltek products for over a decade to provide powerful Purchasing, Materials Management and Asset Management functionality designed especially for project-based businesses.

You can find out more about FMIS solutions for Deltek through the FMIS website or the Deltek Partner Marketplace.

“FMIS is exactly the solution we needed. It allows us to manage our design build projects from start to finish”

**Teresa Raffel**

Director of ERP & Supply Chain Management

“In FMIS, Exponent found a system that provided the flexibility we needed to accommodate our approval matrixes while still seamlessly interacting and taking advantage of the capabilities of Deltek.”

**Sue Lawless**

Business Manager

“FMIS replaced all our manual processes for managing inventory, procurement and production. It has saved us so much time especially working with BOMs. Best of all, FMIS is fully integrated with our Deltek ERP.”

**Whitney Minnes**

Information System Specialist
